REGIONALOGUE

PUBLISHED BY THE STUDENTS OF

Jonathan Dayton Regional High School
Springfield - - - - New Jersey

F O R E W O R D

AS America is known for its democratic procedure, so our high school is characterized by its democratic method of operation.

As a national political party convention represents many states, not just one; so our school is composed of students from six communities; not one alone.

In the spirit of a sincere American political party, the students of Regional High School present this record to the public for approval. In this year (1940) when leaders and thoughts are seeking the attention and support of the citizens, the "Regionalogue" points with pride to the students and to the policies of Regional High School that the public may be informed and ready to "elect" their young people to places of usefulness and responsibility in society, and that the community may continue its loyal support of a school that prepares and trains these and future candidates for citizenship.

While picturing the practices and principles of our school, the "Regionalogue" believes that it is presenting an outline of the best principles of American education—the answer to our country's need, and the world's.

Our Party Symbol

THE Democratic Party may have its donkey, and the Republicans may keep their elephant. Regional High School is proud of its bulldog.

He symbolizes the Regional "party" and the spirit that must be America's during 1940 and throughout the trying days of the new decade. He is slow to anger—in fact distinctly friendly—yet known for his strength and courage. He is a watchdog of infinite patience and loyalty.

Because democracy is enduring its most severe test, America must be a bulldog. Toward other powers she must be courageous, and yet thoroughly friendly. She must be intelligent in facing changing conditions; patient, gentle, and wise in handling intricate economic problems; and finally as determined, loyal, and enduring as a bulldog in holding on—holding on to the finer things in democratic life and to the essentials of the republican way of government.

By precept and example he has taught us the value and the satisfaction of faithful work. From him we have caught sight of the eternal light of scholarship. In the presence of his mind we have learned to admire careful and honest thinking. As he required that we invest effort and patience in our own development, so he gave unsparingly of his energy and time in our guidance.

We shall always admire his ability, respect his fairness, appreciate his generosity, and remember him as our most interesting and warmest friend.

With respect and admiration we dedicate this book to Mr. Gatti, the faculty adviser to the Class of 1940.

Key-Noter

MR. WARREN W. HALSEY
Supervising Principal

Certainly no organization places upon its leader problems of greater consequence than does a complex modern high school. How far his influence reaches and how many lives he affects no one can estimate. Regional High School is fortunate to have in its Supervising Principal, Mr. Halsey, the experience, the integrity, the wisdom, the patience, and the generosity that are his. We know him as a capable administrator, a respected leader, and a faithful friend.

Every large and costly enterprise devoted to public welfare depends upon a governing board to form and direct its policies, evaluate its progress, and manage its financial and material problems. In this regional type of school, devoted to the secondary education of young people from six towns, the board of education is a unique organization composed of public-spirited citizens elected from their constituent communities to serve impartially in a unified group the interests of the school and of the six towns.

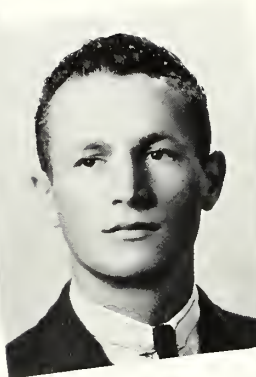

Under their authorization a magnificent building was erected, a capable and earnest personnel chosen; and during the past three years the school has rapidly achieved a reputation as a well equipped, well balanced, progressive institution. The enviable record of the school's accomplishments is a credit to this wise and conscientious board of education.

THE LAST WILL AND TESTAMENT OF THE SENIOR CLASS OF '40

We the senior class of '40, residing at the UNION COUNTY JONATHAN DAYTON REGIONAL HIGH SCHOOL, Springfield, New Jersey, being of sound mind, declare this our last will and testament. Being as generous as our treasury permits, we bequeath the following as tokens of our gratitude:

To the Juniors: Our history assignments (not because we want revenge, but we know what's best for you.)

To Mr. Manze: A Junior G-Man to help him track down class-cutters.

To Mr. Gatti: Our gratitude for his untiring assistance in our activities, saying nothing of our untiring persistence in his history assignments.

To Miss Porter: A group of angels that are interested in learning Latin.

To Mr. Lewis: A water pistol. You know, it's quite dangerous to carry money without protection, and a stitch in times saves (\$) nine.

To Mr. Poppendieck: One toupee (as a last resort.)

To Mr. Geston: The balance of the Kreml Mr. Poppendieck received last year. We all hope it will work better for Mr. Geston.

To the Band: Nobody else like "Minnie" DiBattista and "Shorty" Legg.

To prospective class cut-ups: The side-splitting (?) comments of George Scott and Carmen Peness.

To any "financially embarrassed" funds: Another great "Regional Circus."

To any naughty freshmen: The fatherly advice of "Richie" Hruby (too bad he didn't take it, himself).

To all Regional girls: Another hero like Bill Glowacki for them to rave over.

To Mr. Peigelbeck: Plenty of rain and good crops.

To Mr. Werner: A certified librarian to help him read all of the books he recommends to his classes.

To all of Henry Marinelli's undergraduate admirers: Time to study (watch the honor roll increase.)

To Jim Neville: The ability of Horst Wolf to concentrate and really study.

To Miss Krumacher: A new set of wrenches, just in case her limousine may refuse to run and no handsome hero is on hand.

To anybody bored with class: A book of Danny Kerr's adventures (you may get bored with them, too.)

To Swanson, Cull, and Sacco: The quiet ways of "Andy" Kufta, Julius Toth and Walter Grosskurt.

To "Kennie" Roll: A stooge to carry his sousaphone.

To the Junior Girls: Longer skirts.

To Dorothy Kernan: The ability of Peggy Egan to make excuses.

To Mr. Campbell and Mr. Werner: An aspirin and our thanks for their faithful work on the "Regionalogue."

The senior class, sincerely hopes that each benefactor will be well satisfied. We now affix our "X" to this document on this first day of April in the year One Thousand Nine Hundred and Forty.

On to Washington

With all the glamour and glory of an opening night on Broadway the Senior Class of 1940 presented the most outstanding dramatic event in its history. It was that famous and ever-popular comedy—"What a Life!" As a result of many careful try-outs a superb cast was finally selected. Richard Sachsels was billed as that lovable, troublesome, pitiful fabricator, Henry Aldrich. Richard's remarkable portrayal of this character is hailed as the best performance ever given on the Regional stage.

It is agreed that every member of the cast, without any exception, played his part to perfection. To each one and to Miss Johnson goes the credit for setting a new high standard for Regional Dramatics. Quite properly the play drew a record Regional audience. It was an audience that will not soon forget a memorable event. What a play! What a cast! What a crowd. "What a Life!"

Past Performances

On September 13, 1937, we received our first glimpse of the new campaign headquarters. What an awe-inspiring sight it was!!! In open-mouthed wonderment we stared at the beauteous structure—the place where for the next three years we were going to hang our hats and feel at home.

The educational resources of Regional are practically limitless; and social affairs, numerous. We've learned many, many things in these years. Some will help when we want to pass college entrance examinations; some will be useful when we want a job; and others will serve when we want a friend.

With Richard Sachsels to lead us, the class swung into action. Our first social was a Sophomore Dance celebrating St. Patrick's Day, which naturally was a success. As the first clear evidence of superior dramatic ability we presented "Just What They Wanted," and the "Junior Varsity Show." The high-spot of the show, as always, was Linda Guerriero's singing, "Minnie, the Moocher,"—an unforgettable moment. Soon came one of the greatest epochs of our dramatic career—the Junior Play, entitled "Wanted—A Wife." This was an English farce with Fred Van Pelt and Mary Jane Hicks as leads.

"Bailum and Barney" soon came to Regional. The Circus created such a terrific sensation that all former records of attendance were smashed. Jumbo, the monstrous elephant, would have been present, if he hadn't died two months earlier.

Two years had passed since our first glimpse of Regional—two of the most colorful years of our young lives—filled with glorious dances, thrilling games and sensational victories, hilarious entertainments; and some work (darn it!).

Summer was here with all its flowers, sports, romances, and mosquitoes. Vacations followed, but we soon tired of the momentary pleasures of these hot weeks, for we wanted to come back to school and to the lasting joys of our school life.

Girls began singing "Indian Summer" but soon changed their tune to "You've Got to be a Football Hero." As soon as the offices were filled with Ray Roosevelt Maguire as President, Fred Garner Hund as Vice-President, Iris Hull Raimondi as Secretary, and Linda Morgantheau Guerriero, as treasurer; the Senior Class activities got under way.

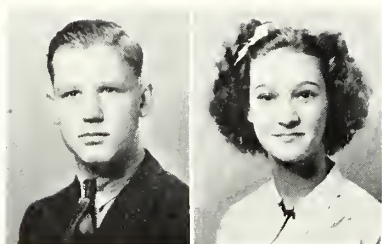

After the yearbook work was started we began selling Christmas cards. Up and down, in and out, back and forth, and all around we tramped in search of prospective buyers—and we surely found them. While it was a lot of fun satisfying our customers, it was also satisfactory to us from a monetary viewpoint.

The next big step in our program was the Senior Play. The event of the year—the most spectacular performance ever to be given on the Regional stage—the envy of Broadway actors, Hollywood Stars, and all other amateurs—our play topped the list as the best ever. "What A Life" was so successful that we had plenty of money with which to go to Washington and have a grand time. And, of course, we did have a mighty fine time. Seeing the capital of the country in all its splendor lent a great deal of inspiration to us. We came back to Regional, swelling with pride because we are part of such a magnificent country, and because it is part of us.

Came time for graduation, and all were sad. Farewell speeches and refrains of "Auld Lang Syne" were interwoven with tears into a pattern of sorrowful departure. Our years in Regional are over, but our life has just begun.

“Let the

FIRST PLANK "Better Government"

For his own well-being a man must seek to "know himself" and govern himself. With equal urgency, a nation, a school, or any social group must know its own history, purposes, and needs; it must control its action and that of its individual members.

From the study of history and social problems Regional students have acquired the impulse to govern themselves, to assist unfortunate individuals, to strengthen the spirit of humanity, and to heighten the morale of the group.

In brief we advocate, we promise, and we practise "better government."

School-Community Council

In American high schools the work of the student self-governing organization is becoming increasing constructive and important. What is true in the country at large is true in our community. Our School-Community Council has striven most diligently to meet our school and student problems. With tact and with a whole-hearted willingness to work ceaselessly for the students and school, our Council has served the school wisely and has won the respect of both students and teachers.

Hall Patrol

If you try to get through the halls during either of the lunch periods, you will be faced by some of the most husky men and most determined women of Regional. These patrolmen have kept law and order in our halls.

To every student on the hall patrol and to Mr. Manze the adviser, we must give full credit. Now the students in fourth period classes no longer faint from the sight of fourth period lunchers heartlessly eating in the halls. Incidentally the halls are pleasingly quiet. The hall patrol succeeds.

Cafeteria Squad

"Please pick up those papers." "Are you going to leave that dirty table?" These remarks and many others you hear during your lunch period. Where do they come from? We'll tell you. From the cafeteria squad. We hope none of you hold anything against these young men and women. In a charming (sometimes threatening) way they tell you to dispose of your "leavings." Thanks to their efforts, we, as well as they, are rewarded with a clean cafeteria. This is the squad's first year. With more experience they will find their job easier.

Girl Reserves

This is a somewhat philanthropic organization in that the girls try to spread cheer by sharing what they have with others, who are not so fortunate. Two of their busiest seasons are at Thanksgiving and Christmas. Some meetings are devotional, others are social, and all are thoroughly enjoyable. The YWCA will some day be proud of these well-trained girls just as we are proud of them as Girl Reserves today. Such an organization is a benefit to the school and the community.

Library Council

The Library Council members care for the library in many ways. They take charge of the desk, check attendance, and see that the library is kept neat and in order. They take pride in handling these details accurately. Their work is valuable to themselves as well as to the school. While they are gaining practical experience, they become well acquainted with the library.

The Council's social activity of the year is the Faculty Spring Tea. Both teachers and council members look forward to this annual occasion.

The first aim of the Automobile Club is to prepare high school youths to shoulder the responsibilities involved in the operation of a motor vehicle. The club looks forward to a reduction of the increasing toll of traffic accidents among persons of high school age. Furthermore, the club prepares the students of today to support sound traffic programs, and prepares them to cope effectively with traffic problems as adult citizens. Certainly this is a wise and worthy program. We admire it; the members like it.

Journalism Club

These journalists studied the problems of school papers and investigated some of the working methods of newsmen on city daily papers. Guest speakers from city papers visited the club to describe their experiences in gathering and writing news. Club members who had been sent out on assignments returned to read their copy before their critical club members. Work supplemented talk; the club prepared and published one complete issue of the "Dayton News." In the spring they all visited a city newspaper plant.

SECOND PLANK

"Better Literature"

"As a man thinketh in his heart, so is he." Noble thoughts make noble men. If we want to be intelligent and unselfish, our minds must be enriched with the noblest imaginative literature. Our books, theatricals, papers, and magazines must give us clean entertainment, great personalities, high thoughts, and a wholesome view of life.

From the class-room study of literature, we learn to enjoy good books. Our interest in good reading and good writing has led us into journalism and book making.

We advocate, we promise, and we practise "better literature."

"Regionalogue" Club

How do untrained students learn to sell advertising, sell books, collect club assessments, organize and perform the innumerable duties that must be accomplished in the production of a yearbook? The answer is found in the "Regionalogue" club where these money-minded workers face the problems of finance. From the membership of this club the business staff of the "Regionalogue" is chosen. Certainly theirs is an unselfish and unnoticed task. Without a cheering grandstand and without praise they do their quiet work and do it successfully.

“The Dayton News”

Covering the news of the school, voicing student opinion, creating interest in school activities, and developing future journalists have been some of the aims of our school newspaper, “The Dayton News,” edited by Mary Jane Hicks.

Our live, energetic sports reporter, Danny Kerr, gave us the up-to-the-minute sports information; and Snoop (unknown) kept us informed of social activities.

The Business Staff must get advertisements, sell and distribute the papers, and get enough money into the cash box to keep the “Dayton News” alive. Everyone has done his part faithfully and well. Long live the “Dayton News”!

“Regionalogue” Staff

Money doesn't grow on trees; books don't write themselves; mere wishing doesn't produce a yearbook. The creators of the book invest their time, energy, and imagination, without stint. What keeps them working so intensely and faithfully? Their desire to have a good annual, their sense of responsibility, the sheer fascination of the work, and, above all, their pride in Regional—all these forces have kept the staff members busy in one of the largest and most interesting of student activities. Certainly the success of the two previous years challenged this group to do its very best. Having already received a “second place” and then a “first place” in Columbia Scholastic Press Association contests, the student body expected this third staff to live up to the “Regionalogue” standard. In the number of books sold and in the quantity of written and pictorial material the staff has surpassed former accomplishments. Yet their greatest concern is that the book may adequately fulfill its purpose—to serve as a memory book, a record of student days at Regional High School.

In the beginning of the year try-outs were held. Those who passed became "troupers"; the others were relegated to the ranks of "hams." The troupers were to be the actors; the hams, backstage workers. At last almost everyone became a trouper by passing the required try-out.

The club was divided into five groups, each with its own director. Each group produced its own plays and presented them before the other members of the club, a most critical audience.

Orchestra

Frequently we modern high-school students are described by our elders as an empty-headed, reckless generation too fond of "hot" music and too indifferent toward the lasting values of life; but it is a false and unfair picture. Indeed, when we hear the beautiful strains of the Strauss and Herbert waltzes or great "classics" played by our Regional orchestra we are convinced that "good" music is not only acceptable but that it is thoroughly enjoyable and can do much to add to our cultural background. We are proud to have this fine organization in our school, and we salute its work.

THIRD PLANK

"Better Music and Art"

Scholarship has revealed what man has invariably believed — that a nation's civilization may be measured by the quality of its music and other arts. For a nation and for an individual, music or art is frequently the medium of expression through which come the greatest influences of life — inspiration, comfort, challenge, love, etc.

Regional students find great interest and satisfaction in a variety of art forms.

For the school and for the nation we advocate, we promise, and we practise "better art and music."

Band

School life without a band would be like a dance without an orchestra. We need the music to keep us in step, to give color to the games, and to keep alive the spirit of the school. In providing color, music, and spirit, our Regional band does a fine job. We all know that being a member of the band is not a picnic. There is work to do. At games, assemblies, concerts, and Memorial Day parades the band is always ready (thanks to Mr. Russette) to give a first class performance.

Boys' Glee Club

"Awake and Sing." That is the motto of our spirited male vocalists. There's life, spirit, and color in their music. Volume they have, and quality too. Who can fail to respond to a chorus of male voices? The boys sing for their audience, of course; yet they are singing for themselves, for the greatest reward that comes to musicians is the joy of their own music. To Mrs. Lawshe belongs a large share of the credit for their pleasure and their success. May we always have a club and a spirit for singing!

Girls' Glee Club

Happy girls are singing girls; when these Regional co-eds enjoy life, they sing—and sing beautifully. We all know that on Wednesday class periods may seem long, but not glee club periods. These bright song birds know the pleasure of working together harmoniously. The result, of course, is quality and beauty. We agree with Keats: "A thing of beauty is a joy forever." These girls had their chance on February 29 (leap year, of course) and starred in Regional's biggest musicale. The audience was pleased and will remember the Girls' Glee Club.

Sketching Club

Recently a "No Admittance" sign was hung on the door of Room 204. Why? Because in that restricted territory were fifteen busy girls, sketching a charming bathing-beauty classmate. Art critics will find our future Pettys and Parkers in the Sketching Club. But they will find more too, for in this club there is a great variety of talent. The school is proud of the variety and quality of this club's work. When murals, posters, paintings, or illustrations of any kind are needed the Sketching Club generously does the work.

Mixed Chorus

This is where our basses, tenors, altos, and sopranos join to produce what is called "First-Class Harmony." This group lives up to Regional standards of achievement. It was shown in their spectacular Christmas Assembly where as angels they really were "good." Even though this is their first year together they have succeeded in winning the approval of their critical student audience.

In the February concert they helped to provide the whole community with a thoroughly enjoyable evening of music. Regional's biggest musical program delighted its largest musical audience.

FOURTH PLANK "Better Science"

Not blindly, but scientifically, man attains his greatest control over nature. By taking thought — observing, experimenting, measuring, testing, thinking inductively and deductively — he is able to understand, then to harness, and finally to control many forces of nature. For his own ultimate good, man must become increasingly wise and humane in extending his application of science to human life.

Through many branches of science, recently through agriculture, Regional seeks to make knowledge increasingly useful in the practical everyday life of its students.

We advocate, we promise, and we practise "better science."

Nature Club

The birds in the air, the fish in the sea, the plants and trees all around us—these are the interests of the nature club. Club members explore the dense woods surrounding good old Regional. Searching parties usually succeed in locating the bewildered adventurers.

This club consists of about thirty-eight nature-minded students who listen to lectures, watch demonstrations and even attempt taxidermy. We find club members longing for Wednesday club periods so that they can continue their lively experiences with their enthusiastic faculty adviser, Mr. Cookman.

During the year they expect to sponsor a photo contest. These camera fiends have fun. What fun!!! Many a dignified personality has been caught unawares by one of them. FIFTH PLANK "Better Homes"

Water will rise to its own level — not higher. A nation's life will be as good as its home life — not better. Homes set the moral tone of the nation. Warnings have been raised that home life in America is disintegrating.

Regional High School's answer is a series of thorough courses in home management, cooking, sewing, and related subjects. From these classes comes the desire to make the home attractive as well as efficient. Consequently hostess and needlecraft clubs have been active.

We advocate, we promise, and we practise better home management.

Modern Hostess Club

The Modern Hostess Club is an organization of girls who take their social contacts seriously. They planned their program this year to include a variety of entertainment: a dinner which was a great success, a card party, and a tea. Of course, this sounds simple; but it means learning how to invite guests, how to greet and make them comfortable, how to plan attractive refreshments and table decorations, how to serve and how to play bridge. It is lots of work, but also lots of fun.

Knitting Club

Walk into room 206 on Wednesday during the club period. What do you hear? "Click! Click!" and "Buzz! Buzz!" You are in the midst of the Knitting club where stitches and conversation are well mixed. Is it an old maid's sewing circle? No! They're lovely young school girls making sweaters and scarfs for their special friends. Loving thoughts and sweet dreams are gently woven into their patterns in the affectionate feminine manner of their romantic patroness, the "Lily Maid of Astololot."

So, you think you're smart because you can thread a needle, do you? Well, did you ever crochet a pincushion or weave a dish or sew a picture? If you haven't, these witty lassies are one up on you!! They've done these things and many other interesting ones. Most of the girls take advantage of this time and make themselves new gloves, pocketbooks, and other useful articles. The training they receive in this club may some day lead to an heirloom in the form of a crocheted bedspread or tablecloth.

SIXTH PLANK "Better Business"

Unless a nation is systematic in its business and keeps its financial credit sound—it will fail. If it does not govern its finances, it cannot govern its people. Its legal and social enterprises will accomplish little if its economic structure is unsound. Likewise, an individual's usefulness is questionable if he is careless with money.

Students at Regional get thorough training and experience for commercial work. Their interest in this phase of life leads them to extend their work beyond class into extra club activity.

We advocate, we promise, and we practise "better business."

Commercial Club

The Commercial Club is organized for both commercial and non-commercial students. Members who have never had an opportunity to learn typewriting get their instruction here. The others are given practice to increase their typing speed. It is interesting to see a student with a typewriter produce original and artistic designs. These typing artists put their designs in local and state contests. Do they win prizes? Of course they do. Furthermore, they devote meetings to the study of office machines.

A stormy debate! Should this club retain its customary name? No! Some one said, "It's such a dull name." Finally two new ones were considered. Which should be chosen? You know the result.

During the year the club visited places of business. To live up to their name, they made the trips entertaining as well as educational. Trips alone did not constitute the social activities. During the year the members indulged in parties. On the serious side, many of the girls have worked for certificates for efficient typing and stenography.

Some of the model planes which were constructed in this club were flown in contests and placed well among the winners, while others were made only for display. The boys stress the type of model powered by elastic bands, while a few of the lucky ones own gas engines. Besides, for them it's not tedious—it's fun—and that makes all the difference in the world.

SEVENTH PLANK

"Better Hobbies"

"All work and no play makes Jack a dull boy." "The world is so full of a number of things, I am sure we should all be as happy as kings." One interest — and only one — develops a one track mind. If we want not to be boring, we must not allow ourselves to be bored. To be fresh for our vocation, we must have an avocation.

Regional students are alive to the pleasure and value of hobbies. They play, they build, and they invent.

We advocate, we promise, and we practise "better hobbies."

It's fun to loaf sometimes, but it's more fun to play. The Social Game Club has as its purpose the developing of skill in social games through actual playing. While several groups are playing pinochle, the more experienced members are teaching the beginners. A few of the fellows are getting deep into auction bridge. The club members spend their time playing old games, learning new ones, learning to cooperate with their friends, and developing the ability to participate skillfully in a phase of modern social life.

Checkers

The Checkers Club is organized to give students an opportunity to sharpen their minds by playing table games. It's fun to match wits and strategy over a game of checkers. Tournaments will be held to give the boys an opportunity to win championship awards in checkers and shuffleboard.

It has been reported that only "book worms" join this club for their mental relaxation. A glance at the club picture will clinch that report. At any rate the fellows have a good time.

EIGHTH PLANK "Better Health and Sports"

Though we govern ourselves and manage our homes wisely and have not health — we are handicapped.

Though we feed our minds with the richest books and best music, and have not strength — we are living a half-life.

Though we train our minds in science, handle business with care, and have not physical endurance — we are ineffective.

Though we engage in fascinating hobbies, and know not the feeling of physical vigor — we have not tasted the joy of living. Athletic sports build health. We advocate, we promise, and we practice better health and sports.

Gymnastic Drill Club

These fellows develop skill and coordination in their "Tumbling," and on the parallel bars. Strength alone is not the goal of physical development. Only when muscles are controlled and coordinated, does physical activity become skillful. Only with coordination, balance, and perfect timing can a circus performer or a high diver accomplish his feats. It is not the purpose of this club, however, to develop spectacular stars, but to enable its members to enjoy gymnastic sports. No one can know the pleasure of such sport until he has tried it.

Freshman Wrestling Club

By means of this club, Mr. Battaglia has done much to create wrestling interest and to develop an understanding of the sport among the younger boys of the school. Occasionally one or two varsity wrestlers assist Mr. Battaglia in his effort to coach these inexperienced, would-be grapplers. These freshmen get a clear understanding of the fundamentals, and, although not all of them go out for the team, they can watch a match with interest and know just what is happening.

Camping Club

We're sorry we couldn't actually go camping as a group. Most of us would like to and many of us do camp quite often with friends or family groups. Hiking near the school has given us a chance to study possible camp sites. A study of fires, shelters, camping equipment and camp arrangements occupied many of our meetings. Of course, we investigated some of the mysteries of camp cooking. The remainder of the meetings were used for practice in camp entertainment programs. We have learned how to raise camping above the routine of mere eating and sleeping.

Social Dancing

Does the boy leave the girl stranded in the middle of the floor after a dance? Does a girl just stammer, blush, and nod her head when a boy asks for a dance?

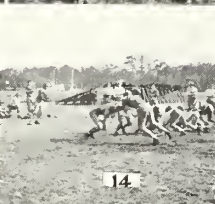

These and many more questions are answered in the Social Dancing Club. Fortunately the club time is spent in dancing, not in theoretical discussions. If you want to have a good time and become a graceful dancer, join this crowd. You will soon be in step with good times.

Athletic Campaigners

Our physical education program provides in numerous ways for not only the health, but the recreation and the actual athletic activity of every boy in school. Through a wide intra-mural program games are sponsored for the sake of the fellows who haven't the time or the ability to take part in the extensive inter-scholastic sports. Such boys have their fun and develop their athletic abilities not only in "gym" class but in the intra-mural contests for individuals, for example: track contests, archery contests, wrestling, table tennis, and basketball foul shooting. To go beyond individual activity and to provide the experiences of team play, the program includes touch-football, volley ball, and softball leagues. The fellows can develop spirit and team work and battle it out to their hearts' content.

Better known and more publicized, of course, is the inter-scholastic competition where school meets school in scheduled games, season after season. This "varsity" activity includes a far bigger percentage of the boys than is generally realized. It is interesting to know how many take part in each sport. In football seventy-five to one-hundred boys try out for the team. Through necessity this number is later cut to fifty.

Just as many candidates try out for basketball, and thirty are kept through the season. In wrestling at least seventy-five take part in the training program. The cross-country squad numbers thirty-five, and both golf and tennis about twenty each. Another large group is the track squad, which includes seventy-five to one-hundred boys.

C r o s s C o u n t r y

THESE are the boys who carried our colors through Regional's most successful cross country season. Although not regarded as a major threat, the Regionalites firmly asserted themselves by out-running a highly-touted Union team in their first scheduled meet. Thereafter such big-name squads as Weequahic, Newark, Plainfield, Hillside, and Rahway fell under the dust of their pounding feet.

Well established by such sparkling victories, the squad received bids to all the big invitational meets. Led by Captain "Red" Englehardt running his third year and by Grant Lennox, the team won a third place in the county meet, a sixth in the state, and a fifteenth in the national.

You know that a cross country race is run over a two and one-half mile course, a hard distance; which is bad enough but—when you realize that it is run over fields, through woods, across streams and brooks, and up and down hills—then you get a picture of the gruelling job which faces these boys.

Realizing this, we give credit to all the boys, first and last, for it is harder to run last than first. They all worked hard, and thanks to Coach Cookman's good-luck cigar, and new Packard, they managed to get to the meets and come out victorious.

(Low score indicates winning team)

SIX wins and two losses—the most outstanding record ever to be turned in by a Regional grid team. Defeating such notables as Millburn, Roselle, and Roselle Park and losing only to Union and Rahway, the fellows closed a most successful season.

In the first four games we amassed a total of 72 points to exactly "0" for our opponents. Travelling to Union on November 7, we were defeated by a stronger, more experienced team to the disheartening tune of 26 to 0.

Bouncing back from this disappointment, the bulldogs trounced Millburn, our neighboring rivals, with the close margin of one point, 14 to 13. This proved a tonic for our boys, and they went on to take Roselle, 13 to 6.

The second and last loss of the season was suffered at the hand of Rahway, our perennial rivals. With but two minutes to play the score was 14 to 13 in our favor. It seemed that victory was "in the basket." But Rahway, capitalizing on a break, scored in the closing minutes to wrench victory from our grasp and clinch the game 19 to 14. A few seconds after, the gun ended a "heart breaking" game.

There were many personal achievements attained in the past season. Bill Glowacki became State Place-Kicking Champion by kicking a field goal from the forty yard line. Bill, captain-elect for the season, along with "Ki" Adams and "Babe" Pushman received mention on several all-state team selections.

Coaches Brown, Geston, Haut and Hruby deserve credit for the fine performance their team turned in.

WRESTLING is a sport of individual skill and achievement, for there is no substitute to take the place of a tired wrestler, nor other men to cover up mistakes. It is a sociable sport in which the athlete gets a chance to meet his opponent personally. An opponent is a friendly rival whom it is a pleasure to meet again.

This year's team is typical of Coach Battaglia's teams. The team had "plenty of fight." Winning or losing, the fellows were good sports and enjoyed the competition. The first match was indicative of the forthcoming season, as the team lost a close, hard-fought match to the Alumni—18½ to 17½. This contest was followed up by two overwhelming Regional victories over Bound Brook and Lodi. There came a siege of hard luck when Somerville and Jefferson eked out close victories. The final match was the outstanding example of the grappler's spirit, as they lost to Union 24-14. Union, the district champions, (only once defeated and tied for second in the state) found themselves up against a determined band. Two matches went overtime, and the others could have gone either way.

The Bulldog grapplers qualified nine of ten men for the state meet at Teaneck. Richard Sachsels, Mario Zema, Roger Allcroft, and Jim Neville won district titles. In this state meet Jack Schock won third in the 95 lb. division; Jim Neville won second place in the heavyweight class; and Bill Arthur won second place in the 155 lb. class.

The team has a reputation for brainy, spirited, determined wrestling. For their success the fellows give unlimited credit to Mr. Battaglia who knows wrestling and loves the sport. From him they learned how to develop skill, and acquired a sportsmanlike love of wrestling competition.

“UNION County Champions.” “Second time in three years.” “Only team to win the trophy twice since the tourney’s origin.” These and many other phrases permeated the halls of Regional on March 1st. For the second time in the history of basketball at Regional the team has “brung home the bacon.” The boys turned in the excellent record of eighteen wins to only five losses.

Starting the season off rather poorly compared to previous years, the boys showed their “stuff” in the final scheduled and county tournament games. Due to the bad start the team placed third in the newly organized conference. This, however, did not dishearten them. They went on to take Wardlaw in the preliminaries, Sacred Heart in the second round, Hillside in the semi-finals, and Cranford in the finals of the County Tournament to once more clinch the title.

Here’s an outstanding record for any basketball team—two County Titles in three years and fifty-four victories to only twelve losses in three years. The team certainly deserves an everlasting round of applause.

And to coaches Brown and Hohn for their excellent training and coaching of these boys—Orchids, Gentlemen—bushels of them!

With a deafening roar comes this cheer from the crowd: "Come on, Orange! Come on, Blue! Come on Regional! Crash through!" If our cheerleaders can't get a long, loud, and lusty yell from the spectators, then no one can. The reason we can say this with such finality is simply that the leaders are carefully selected and patiently trained. Applicants must pass rigid examinations on their knowledge of cheers and their ability to arouse and lead the cheering section. Out of sixty-eight candidates this fall fourteen girls and two boys were chosen for this strenuous work.

This year heralded the arrival of a new sport—Indoor Track. The fellows on the team were willing to work under great handicaps in order to have a team for Regional. Handicaps were plentiful such as the lack of indoor training, and lack of indoor experience. But the season showed two things: that we do have runners, and we will have an excellent spring track team. This was an experiment with the purpose of creating a desire in the school for indoor track as a permanent sport. Here's hoping that it does remain a permanent sport in Regional.

Tennis Team

1939

Led by the driving play of Captain Carmen Peness, the past season's tennis team won five matches and lost only three.

In interscholastic tennis competition a match consists of three singles and two doubles games. One point is scored for each game victory, and the team scoring the most victories of the five games played, wins the match.

The lack of practice facilities made it necessary for the team to get all its practice in actual matches. In spite of this they twice trounced our traditional rival, Linden, to the score of 5-0, and 4-1. The brilliant play of our number one doubles team, Captain Peness and Bill Arthur, ranked them among the foremost in the county and state. This year they will again be joined by Dick Sachsel and Norm Lott. With all four "regulars" back, we look forward to their continued success in the 1940 season, under our able coach, Mr. Matthews.

Golf Team

1939

A string of ten decisive victories with only two losses and the county golf crown is the record set by last year's golf team. The fellows defeated each of their opponents twice except for Rahway and Millburn, which were defeated only once. Julius Gatesy, Irving Street, and Ben Karalis turned in excellent scores throughout the season averaging in the high seventies. Gatesy, shooting a seventy at Battle Hill Golf Course, set the record for high schools of New Jersey. Ben Karalis, journeying to Asbury Park, placed eighth in the state meet. The team as a group ranked fifth in the state.

Coach Brown worked hard with these boys. He certainly deserves recognition for his stellar coaching of the Union County Golf Champions.

1939

Tom Allen, who was elected Captain of the squad, captured top honors in the "counties" as quarter miler and second in the pole vault during the state finals. Setting the home track record for the "440," Tommy ran the distance in 51.5 seconds. Amongst his other records are 22.7 for the "220" and 11 feet 7½ inches in the pole vault. "Red" Englehardt tied Ed Sigety's previous mile record, 4 minutes 33 seconds. Jack Towers "churned" the cinders in 10:4 for the 100 yard dash, and Don Maguire slashed the record for the low hurdles to 27.1. Johnny McGeehan and Jim Neville lengthened the marks for the javelin and shotput respectively. Johnny hurled the javelin 143 feet 5 inches, and Jim tossed the shot 40 feet 9 inches.

Coach Geston certainly deserves credit for his outstanding work with last year's squad. Under his tutoring the fellows worked hard to improve their "form." Patiently they ironed out all the "wrinkles" and learned how to reach a maximum performance. "Practice makes perfect," so they practiced faithfully. With a will to win the fellows trained carefully, and kept themselves in the pink of condition for themselves, for the coach, and for the school.

Girls' Athletics

"Come on, girls, let's go!" That's a typical yell from the audience when our girls get started. When teams journeyed to other high schools on field trips, Regional was victorious. With medals in view intramural competitors battled through a series of contests; the foul-shooting contest aroused everyone. When the inter-class schedule ended, the winning team played the faculty. Furthermore, there was a game between two honor teams, composed of the best players selected from all class teams. The ping-pong tournament was another activity with keen competition. Then came the track field day, when both girls and boys were excused from afternoon classes to compete in various events. For first, second, and third places they received ribbons.

Girls who gain enough points during their high school years are awarded numerals, letters, and finally pins (the highest award) for participating in athletics.

- Nov. 12 “Zeke” Zabelski, our noted basketball player, is noticed by a certain Springfield blonde, a junior. “B. S.”—this is no joke.
- Nov. 18 Do you remember that smashing victory for Regional against Roselle? Score 13-6.
- Nov. 23 Is this Thanksgiving? We have the rest of the week off; so it must be. Is Christmas going to be on the 25th of Dec.?

- Jan. 4 Special to some co-eds—don't you think the skirts are reaching a new high?—too high.

- Jan. 18 More snow. You freshmen had better get your galoshes out of storage, and don't get lost in the snow drifts, children.
- Jan. 19 “Abe Lincoln” comes to the Regional screen, for the benefit of senior history students. Mr. Gatti isn't here today. Could this be the reason?
